## **Ever Burn**

Standing tall without a base, the Ever Burn Candle™ melts directly onto the surface beneath it, encouraging regular cleaning and constant attention. Its slow burn releases a strong scent of smoke and burnt oil that makes you stay alert and aware.

Ideal for bedrooms, where privacy tends to invite distraction. Simply scented, yet unmistakable.

## **Veil No. VII**

A night treatment that protects your skin, and your virtue. Once applied, the Veil No. VII™ hardens into a firm, uniform layer designed to stay through the night. Its active agents tighten on contact, improving complexion while producing a rigid finish that discourages undesirable closeness. By morning, skin appears smooth, rested, and unmistakably ready for mass.

## Vigil Beads

A handheld focus tool for moments of restlessness.

Composed of interlocking metal spheres, the Vigil Beads™ are designed to keep the hands occupied and the mind steady so that it can protect what is most important for you. Their spinning beads encourage repetition and reflection, reducing idle distraction through simple motion. Ideal for use during study, prayer, or periods of unwanted thought.

Compact. Durable. Purposeful.

## Ab-Stain Wash

Developed with active clarifying agents and natural vinegar compounds, the Ab-Stain Wash™ removes surface impurities while leaving a vinegary scent that lingers throughout the day. The result is a body that feels thoroughly clean, ready for the day, and comfortably out of reach.
